About Portall Infosystems

The Portall Infosystem is a company building a broad digitized ecosystem to crystallize the transparency of cargo flows to benefit all stakeholders, with a mission to facilitate trade by digitizing the supply chain and logistics industry.

The company is on a mission to transform the logistics landscape with simple to use, technology-rich, multitenancy B2B and B2C portals for managing various aspects of the global supply chain.

With its domain knowledge and expertise, Portall helps corporates and ecosystems in identifying opportunities in the logistics and supply chain industry, providing its users with valuable insights through its consulting services and enabling them to trigger the digital transformation in their organization.

Portall is distinguished by speed, agility, and expertise as it builds inclusive, sustainable, cutting-edge service delivery vehicles to help traditional companies navigate the technology revolution in the supply chain and logistics.

The JM Baxi group, promoters of Portall, have a vibrant history of over 104 years in shipping in India with services ranging from ship and port agency, CFS, ICD and terminal operations, freight forwarding, cold chain and offshore handling and clearance of goods.

J M Baxi Group is India's leading integrated logistics, services, and transportation conglomerate with a unique infrastructure and technology backbone. With strong brand recall worldwide JM Baxi is synonymous with the shipping industry in India. J M Baxi consistently delivers award-winning performance in all its business activities through a nationwide network of 60 company-owned offices spanning across India and a strong strategic presence abroad.

Portall is known for its nimbleness in structured and unstructured ecosystems by meeting stringent timelines with quality product delivery.

Portall is proud of its achievements in building the Indian PCS 1x from the bottom up within a record time of 6 months, and of its reputation of bringing innovative solutions in the market without compromising. Other Portall milestones include:

- Launch of the Portall e-learning platform – Portall EDU for upskilling/reskilling of the workforce while keeping all engaged and growing.
- Conceptualized, designed, and developed a brand-new PCS, with the superior scope and value proposition. Delivered in a record time of 6 months.
- A three-fold increase in users.

- API portal introduced for ease of stakeholder integration,
- Providing ease of payments by introducing payment gateways onto PCS 1x.
- Stakeholder engagement drives and activities building awareness in the community.
- 24*7 support - 365 days – pan-India.
- Initiatives with ports to bring better process optimization and reduce the turnaround time.
