### Documents with **transfer of ownership on blockchain** (full support)

Provides a proof of authenticity and a proof of transfer on the blockchain. These documents are completely tracked on the blockchain. Ownership transfer is recorded on the blockchain when sending the document. Once sent, the document is not in your possession any more and can only be viewed as a copy. When document is finalized (released / accomplished / destroyed ...) the workflow stops and the document cannot be transferred any more. Complete history of the transfer is available on the blockchain.
